

# Software and Web Developer

Diploma • 46 Weeks

## Program Objective

In the Software and Web Developer diploma program, students learn the coding languages that every web developer needs to know: HTML, CSS, and JavaScript. Students then broaden their skill set with a strong foundation in SQL, C#, and the .NET Framework that will lead to additional opportunities in the world of software development. Throughout the program, students gain hands-on experience with a range of software development projects that build in complexity as students add programming skills and languages to their toolkit. Graduates of the program will be able to:

- Design the appearance and layout of websites
- Develop cross-browser and cross-platform websites
- Create and optimize content for websites using graphics, databases, animations, and other software
- Translate wireframes and storyboards into functional, responsive websites
- Work with MySQL databases and SQL scripting
- Use the .NET Framework to create robust web applications

## Program Notes

Tuition fees include all course materials. Financial assistance may be available for those who qualify.

**Graduation requirements:** Students must maintain a 75% program average to obtain a diploma.

## Career Opportunities

Graduates of the program may pursue a variety of positions in software development, including web developer, UI/UX developer, front end web developer, software developer, HTML / CSS developer, and Javascript / jQuery developer.

## Method of Delivery

Integrated Learning™ System training facilitated by qualified learning coaches.

## Admission Requirements

Grade 12 or equivalent or Mature Student Status. Courses are open to any applicant who possesses a good command of the English language and is able to follow instructions.

An admissions interview will be administered to determine if the applicant has the required interest, motivation, and entry-level skills to take this program. Students are required to attend and participate in their program according to their approved training schedule and maintain satisfactory academic progress and attendance in accordance with Academy of Learning Career College policies.

## Career-Focused Training

This program is designed to help students develop practical, workplace-relevant skills that support entry into entry-level positions within the field.

## Funding Options

Eligible students may qualify for various funding, sponsorship, grant, or financing options. Funding availability is subject to eligibility requirements.

## Competencies upon Completion

### Core Courses

- **Keyboarding**  
Minimum 25 words per minute (WPM)
- **Operating System**  
Intermediate level of proficiency in a Windows operating system
- **Software Development Industry**  
Computer and Technology Basics for Developers, Overview of Software Development
- **Software and Web Development Skills**  
Version Control, HTML, CSS and Bootstrap, JavaScript, Visual Studio, C#, .NET Framework
- **Database Skills**  
Intermediate level of proficiency in Microsoft Access, Database and SQL
- **Presentations**  
Basic level of proficiency in Microsoft PowerPoint
- **Word Processing and Spreadsheets**  
Basic level of proficiency in Microsoft Word and Microsoft Excel

- **Office Skills**

Personal Computer Fundamentals, basic level of proficiency in Microsoft Outlook and Internet Fundamentals

- **Business Skills**

Customer Service, Project Management
